January 18, 2005

I, John N. Zilliox a citizen of USA declare under penalty of perjury:

I reside at 97 Westgate Road, Kenmore, NY 14217

My educational background related to the field of this invention is BA & DC

I have the following certificates related to the field of this invention: NMT Comprehensive, Advanced & Symposium

I have been providing Chiropractic care and treatment to patients since 1986

I have reviewed NMT: the Feinberg Technique, effectively teach a useful method of neuromodulation therapy disclosed.

I have personally utilized this method in a useful manner in treating patients.

I believe that the disclosed neuromodulation therapy is useful in the health care field.

I have personally utilized the disclosed therapy to treat patients and offer the following case studies:

- 1) A 46yr.old female presented with a diagnosis of rheumatoid arthritis with multiple joint swelling of the extremities and locking of the shoulder of one year duration. Patient could only walk with assistance. Patient was on numerous medications for pain and sleep. Her VAS was rated at 10. Unable to find resolve with traditional medical care, patient began NMT treatment at two times per week. After one treatment pt. noticed immediate improvement. One month after beginning treatment, pt. can now balance on one foot, sleeps through the night, she can climb stairs using alternate feet and swelling is reduced by 80%. Her VAS is now at 3.
- 2) A 32 yr.old male presented with a long history of food allergies that resulted in severe outbreaks of cystic acne within 12 hours of ingestion of any dairy. Unable to be properly diagnosed by the medical doctors, this pt. noticed a "complete cure" as he states, after only two NMT treatments. After his treatment the pt. challenged himself by eating the foods to see if there would be any reaction. There was none. This pt. remains symptom free 14 months later.
- 3) A 27 yr. old female presented with a history of chronic abdominal pain, dysfunctional TMJ, which created headaches, vertigo and pressure in the ears. Her condition was not being resolved medically and the patient was told that she would have to keep wearing a TMJ appliance which she had been doing for over 2 years. After one month of NMT treatment her abdominal pain is non-existent, the strength and balance of her jaw has improved. She no longer has headaches, ear pressure or vertigo. She wears her appliance only at night, where before it was 24 hours.

(I have read and understood the above statement, and I am signing it voluntarily.)

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or

both, under 18 U.S.C. 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Signed: John N. Zilliox date: 01/18/2005
